their final game against Yale they showed themselves to be the best molded tasim that has ever sported the crimmon colors. In open style footbell, as well as the old-time line-smashing game, they sacelled Brickiey and Felton, who took cars of the kicking game for them, are without daubt two of the greatest toe artists that the game has ever known. On defones the forwards in the first line of defense had the knuck of getting the charge on the opponent, and then of charge of the order which accounts to a great extent. for the many game made by the back-lied men through opposite lines.

The second line of defense displayed the ability of immediately dispnosing the other team's offense and then getting to it and throwing the runner before he had crossed the line of scrimmage.

Fact is, I am showing a very exclusive range of effects in these popular Shirts—designs that I consider their best-and for the most part you cannot duplicate them in town. Not many stores carry so large an assortment even.
